

Mateo Kehler is the head cheesemaker at Jasper Hill Farm and is the founder with his brother Andy of the Cellars at Jasper Hill. Founded in 2003, Jasper Hill is a Social Enterprise focused on economic and agricultural development and the conservation of agricultural soils and the Working Landscape in Vermont through the production of high-value artisan cheese. The Cellars at Jasper Hill is a centralized facility that was created to lower the barriers to entry for artisan cheese producers by providing ripening, marketing and sales and distribution and administrative services with the intent of allowing farmstead and artisan cheesemakers to scale. Jasper Hill produces 7 varieties of both raw-milk and pasteurized cheeses and matures and markets an additional 7 varieties for other local cheesemakers.

Mateo lives on the Farm with his wife Angie and children Reed and Zola.
