

COMING IN EARLY OCTOBER!

New, fun and exciting updates are coming to the Student Zone App in October, but your students don't have to wait to get ahead of the game! Get them started now!

The Student Zone App is THE tool for your students to earn credit for their hard work with FUTP 60! Encourage them to get started now! It's as easy as 1, 2, 3:

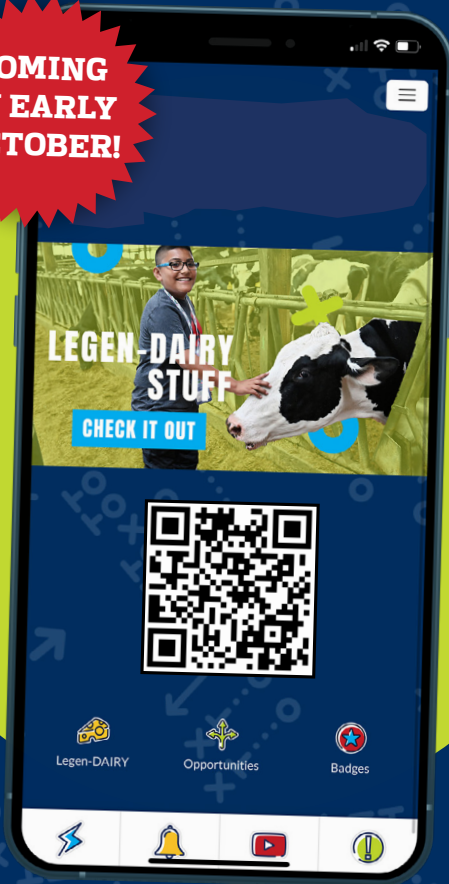

Explore new **Activities** added to the **current Student Zone app** to complete.

Get students to **write down** their progress.

When the **new Student Zone app 2.0** is available, your students will have the opportunity to create an account and receive the **"Wild Card"** badge for having completed at least one activity from the current version of the app and be on their way to becoming a **FUTP 60 Champion!**

EARN BADGES

When students complete Activities in the updated Student Zone App coming in October, they will have the opportunity to earn even more cool Badges like the ones below! Once they earn six, they'll become a FUTP 60 Champion and unlock an entirely new section of the app with content just for them!

If your students don't have the Student Zone App, have them download it today so they can be one of the first to get to Champion status when the new app becomes available! Students can also use the app from their desktop.

WHAT YOU CAN EXPECT WITH THE NEW APP

When it's available in October, the new FUTP 60 Student Zone App will allow students to:

CREATE AN ACCOUNT

Once downloaded, students will be prompted to create an account. If they're under 13, they'll need to enter a parent or guardian email to get permission. Once a parent or guardian grants permission for their child via email, the fun begins!

COMPLETE ACTIVITIES

Students work to complete exciting, unique Activities on the app to earn credit. Activities are divided into different categories:

Food as Fuel | Play 60 | Leadership | Mind & Body | Planet | Community

Once a student chooses a category and Activity, they will learn more about the topic, check out things to do related to the topic, reflect on what they learned and of course, earn Badges toward becoming a FUTP 60 Champion!
